

### CRM On-Demand

eSalesTrack is an on-demand Customer Relationship Management (CRM) service from Soleran that you will actually want to use. eSalesTrack is designed for ease of use, quick access to essential information, built-in analysis, mobility, security, and scalability.

### Get Organized

Manage your activity all in one screen using tools like eSalesTrack's Activity Management module. Developed specifically to help manage your busy day, you can track all the items that you need to do today and watch your activity to plan more accurately for the future. List all tasks, appointments, and follow-up contacts.

Using tools like the eSalesTrack's unique funnel management tool, you can quickly manage opportunities to stay on top of who needs the most attention. Managers can stay on top of their team's activity, allowing them to proactively jump into opportunities that may need more attention.

### Can a software tool really help?

Do you feel like there aren't enough hours in the day to get done what you need to get done? Are you trying to find time to schedule just one more appointment, or deliver a proposal, or even just get back to a customer in need of attention?

If this sounds like you, you need eSalesTrack to help organize your day. From managing leads, calls, appointments, and tasks, to automating your daily sales reports, eSalesTrack has helped thousands of users get on top, and stay on top, of their day. eSalesTrack has made them more effective at their job and helped them communicate with their customers better.

**“eSalesTrack has been key to performance improvement and bottom line results.”**
